

Instructions for Accessing and Using NetTutor in Canvas

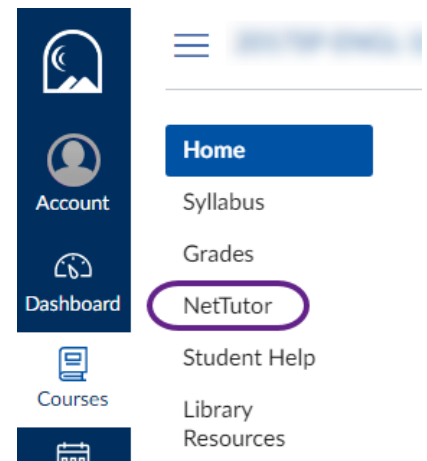

What is NetTutor

NetTutor is a free, online tutoring for students currently enrolled at Cuyamaca College. Students can access NetTutor through their Canvas course.

TIP: Use **Firefox** browser! It works best with the Whiteboard.

Finding NetTutor in your course

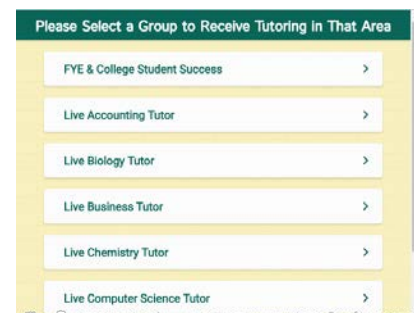

1. Go to [Cuyamaca College Canvas login page](#)
2. Sign into Canvas
3. Click your course
4. On the left side of the Course Menu click “NetTutor”

NetTutor

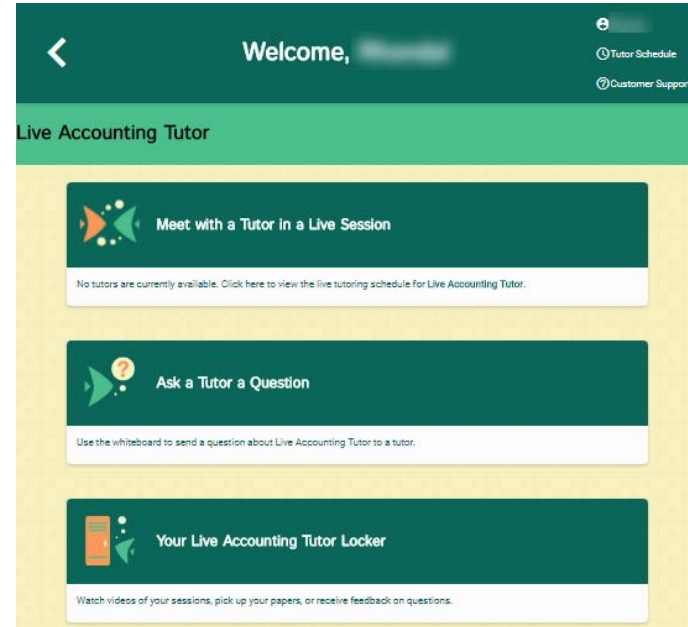

1. A list of subjects should appear. You can choose any of those subjects to start a tutoring session.

You can see what academic subjects are covered within each of these areas: <https://www.nettutor.com/subjects/>

After choosing a subject, a list of types of tutoring options will appear:

- **Meet with a Tutor in a Live Session** – This will take you to a live tutor
- **Ask a Tutor a Question** – This will allow you to leave a question with a tutor, then you will receive an answer through an email at a later time
- **Your Live Tutor Locker** – This will allow you to look back at previous sessions you had with NetTutor

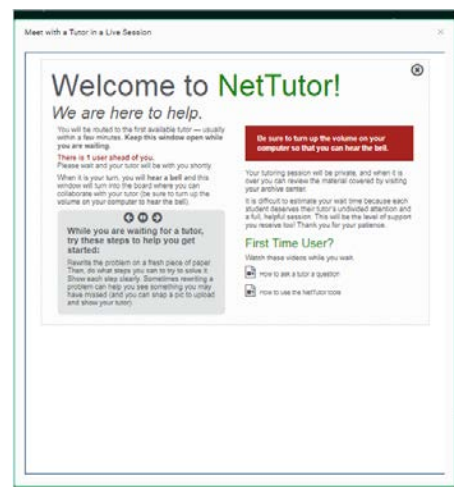

Live Help

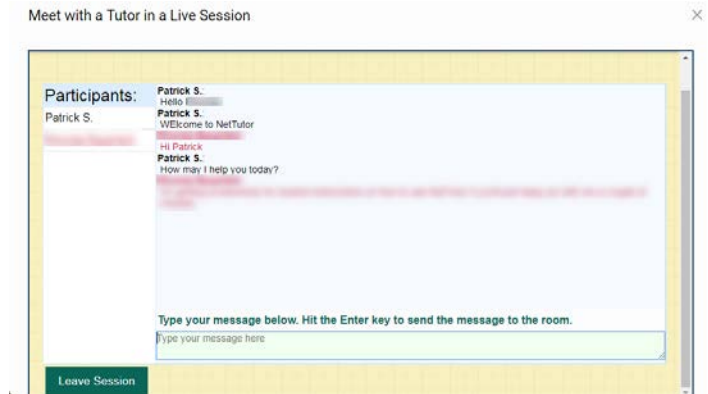

2. After choosing a venue, (in this example: *Meet with a Tutor in a Live Session*) you will see a screen that tells you how many are ahead of you.

You can watch a video on “*How to ask a tutor a question in NetTutor*” while you wait!

A “**cowbell**” sound will ring (and visual bell will display) when they are ready for you.

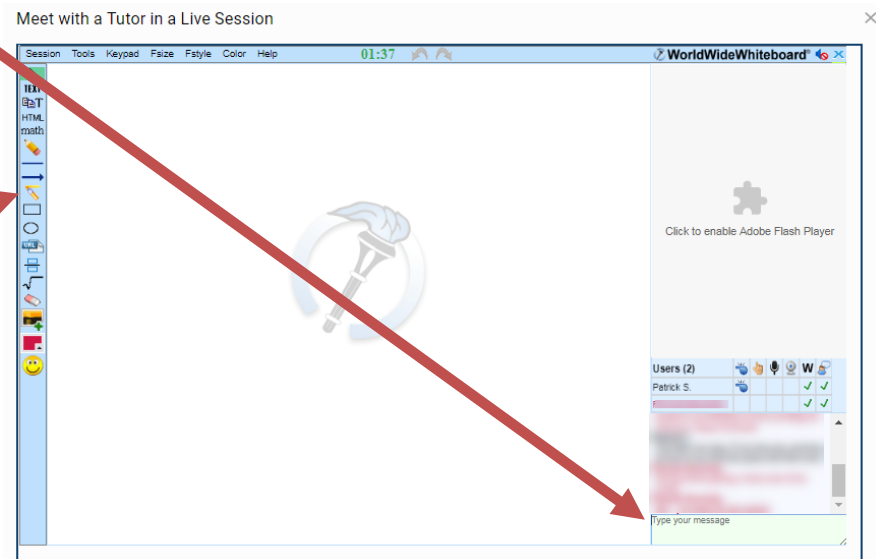

- The Chat window will appear and you may begin your tutoring session.

- Type in the box on the bottom-right corner to chat.

- Use the tools on the left-hand side for a more options

You can save your Session into a PDF document that includes all your "pages" from your whiteboard. Go to the menu bar: **Session > Save as pdf**
