What is Emsi Data?

Emsi data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Emsi data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.

1 Occupation

19-2030 Chemists and Materials Scientists

1 MSA

41740 San Diego-Chula Vista-Carlsbad, CA

Class of Worker

QCEW Employees, Non-QCEW Employees, and Self-Employed

The information in this report pertains to the chosen occupation and geographical area.

Executive Summary

Aggressive Job Posting Demand Over a Deep Supply of Regional Jobs

Jobs (2018)

San Diego-Chula Vista-Carlsbad, CA is a hotspot for this kind of job. The national average for an area this size is 1,003* employees, while there are 1,413 here.

Compensation

Earnings are low in San Diego-Chula Vista-Carlsbad, CA. The national median salary for Chemists and Materials Scientists is \$78,480, compared to \$68,935 here.

Job Posting Demand

Job posting activity is high in San Diego-Chula Vista-Carlsbad, CA. The national average for an area this size is 26* job postings/mo, while there are 71 here.

*National average values are derived by taking the national value for Chemists and Materials Scientists and scaling it down to account for the difference in overall workforce size between the nation and San Diego-Chula Vista-Carlsbad, CA. In other words, the values represent the national average adjusted for region size.

Jobs

Regional Employment Is Higher Than the National Average

An average area of this size typically has 1,003* jobs, while there are 1,413 here. This higher than average supply of jobs may make it easier for workers in this field to find employment in your area.

Region	2018 Jobs	2028 Jobs	Change	% Change
● San Diego-Chula Vista-Carlsbad, CA	1,413	1,517	103	7.3%
● National Average	1,003	1,092	89	8.9%

*National average values are derived by taking the national value for Chemists and Materials Scientists and scaling it down to account for the difference in overall workforce size between the nation and San Diego-Chula Vista-Carlsbad, CA. In other words, the values represent the national average adjusted for region size.

Regional Breakdown

County	2018 Jobs
San Diego County, CA	1,413

Most Jobs are Found in the Scientific Research and Development Services Industry Sector

Industry	% of Occupation in Industry (2018)
Scientific Research and Development Services	39.8%
Pharmaceutical and Medicine Manufacturing	22.7%
Federal Government, Civilian	6.9%
Architectural, Engineering, and Related Services	6.8%
Local Government, Excluding Education and Hospitals	2.2%
Navigational, Measuring, Electromedical, and Control Instruments Manufacturing	2.0%
Other	19.7%

Compensation

Regional Compensation Is 12% Lower Than National Compensation

For Chemists and Materials Scientists, the 2018 median wage in San Diego-Chula Vista-Carlsbad, CA is \$68,935, while the national median wage is \$78,480.

Job Posting Activity

2,059 Unique Job Postings

The number of unique postings for this job from Jan 2018 to May 2020.

342 Employers Competing

All employers in the region who posted for this job from Jan 2018 to May 2020.

42 Day Median Duration

Posting duration is 9 days longer than what's typical in the region.

Occupation	Avg Monthly Postings (Jan 2018 - May 2020)	Avg Monthly Hires (Jan 2018 - May 2020)
Chemists and Materials Scientists	223	43

*A hire is reported by the Quarterly Workforce Indicators when an individual's Social Security Number appears on a company's payroll and was not there the quarter before. Emsi hires are calculated using a combination of Emsi jobs data, information on separation rates from the Bureau of Labor Statistics (BLS), and industry-based hires data from the Census Bureau.

Appendix A - Data Sources and Calculations

Location Quotient

Location quotient (LQ) is a way of quantifying how concentrated a particular industry, cluster, occupation, or demographic group is in a region as compared to the nation. It can reveal what makes a particular region unique in comparison to the national average.

Occupation Data

Emsi occupation employment data are based on final Emsi industry data and final Emsi staffing patterns. Wage estimates are based on Occupational Employment Statistics (QCEW and Non-QCEW Employees classes of worker) and the American Community Survey (Self-Employed and Extended Proprietors). Occupational wage estimates also affected by county-level Emsi earnings by industry.

Staffing Patterns Data

The staffing pattern data in this report are compiled from several sources using a specialized process. For QCEW and Non-QCEW Employees classes of worker, sources include Occupational Employment Statistics, the National Industry-Occupation Employment Matrix, and the American Community Survey. For the Self-Employed and Extended Proprietors classes of worker, the primary source is the American Community Survey, with a small amount of information from Occupational Employment Statistics.

Cost of Living Data

Emsi cost of living data is based on the Cost of Living Index published quarterly by the Council for Community and Economic Research (C2ER).

Emsi Job Postings

Job postings are collected from various sources and processed/enriched to provide information such as standardized company name, occupation, skills, and geography.

Institution Data

The institution data in this report is taken directly from the national IPEDS database published by the U.S. Department of Education's National Center for Education Statistics.
