Commendations:

Recommendations: For New Goal 1 (Q69), "increase enrollment", is the focus more on adding courses in order to increase enrollment? It looks like you will be adding a new course in Philosophy for Bioethics. Will you be adding/modifying courses in Humanities and Religion? New Goal 1 (Q69) states, "increase enrollment". Is the focus on adding and/or modifying courses in order to increase enrollment? You may want to consider making the goal more comprehensive (e.g. increase access to history courses) with different action plans (e.g. increase access to Philosophy by adding/modifying courses, alternative delivery methods, targeting first-year students, etc.). You may want to consider evaluation that focuses on enrollment by gender, enrollment by ethnicity, enrollment by education attainment, enrollment by the time of day.
