Q8 Please attach quote, if available

Outlast Storage Bench with 2 Crates.docx (142.6KB)

Q9 Total Cost of Ownership: Can this request be maintained with existing funding sources? If not, please explain your plan to maintain this request. Example: potential yearly service agreements, warranties, and replacement costs.

Yes

Q10 Justification of Request: Please select the applicable criteria and provide the details how the criteria relate to your request.

Impact on student success and access,

Provided details::

Our Child Development Program and Lab are healthy and growing in numbers and scope. In order to maintain our level of student success and access, we are working to become an Outdoor Education Demonstration Site and we need to add to lab equipment for child experiences and to expand the learning environment experiences for our Child Development students. Also we have met and exceeded the maximum capacity of our primary classroom, R-111, and we regularly move class activities and small group tasks outside. We need equipment to facilitate this learning environment for our adult students.

Q11 Program Goal:Please identify the program goal(s) this request would help your program achieve and provide a brief explanation of how it would do so.

1. Continue the process to become a demonstration site for the Outdoor Classroom.

2. Develop curriculum for our Certificate of Specialization that incorporates the principles and practices of the Outdoor Classroom.

In order to support the learner in the outdoor classroom the benches will be a place the students can observe and document interactions in the outdoor learning environment, currently there is no such place for this type of learning or collaboration to take place. We are striving to become an exemplary demonstration site for PITC and the Outdoor Classroom where others in the community will come to learn from us.

3. Equip the Child Development Center with outdoor observation and engaged learning/collaborative settings for the adult students.

We have met and exceeded the maximum capacity of our primary classroom, R-111, and we regularly move class activities and small group tasks outside. We need equipment to facilitate this learning environment for our adult students
