This 2022 edition of the Bi-National Transborder Conference will be held from Monday, November 28th to Friday, December 2nd 2022 in multiple venues: San Diego City College, Mesa College, Miracosta College, University of San Diego, San Diego State University, Universidad Autónoma de Baja California and El Colegio de la Frontera in Tijuana, and Cuyamaca College who will host the closing event with two panel discussions, an art exhibit, and reception on Thursday, December 1st from 5 to 9 PM.

After the two-year forced interruption due to the COVID-19 pandemic, we are once again organizing this space for dialogue in the Tijuana/San Diego transborder region, which aims to weave interconnections between the academic, activist, and artist communities who seek to reflect on the social, cultural, and environmental problematic aspects of the México/US border. The conference seeks to foster bi-national collaborations between activists, artists, academics, and students with the intention of contributing to resistance against systems of institutional and cultural domination in the border region.

The conference has been characterized by proposing a conjecture of themes as an axis for reflection, which allows us to address the most relevant concerns that currently summon us. For this reason, for the 8th annual edition of the conference as the main axis and focus on the effects of the pandemic on border life on immigrant people.
