***07.02 F22 Support Revisions to Lower Division General Education Requirements for California Community College Baccalaureate Degrees**

Whereas, Resolution S22 9.03³⁹ called for the Academic Senate for California Community Colleges to work with the California Community Colleges Chancellor's Office to develop a lower division general education pathway specific to California community college baccalaureate degree programs;

Whereas, Current California community college baccalaureate degree students are required to complete either the Intersegmental General Education Transfer Curriculum (IGETC) (34 units) or CSU General Education Breadth (CSU GE Breadth) (39 units) lower division general education patterns as determined locally,⁴⁰ which are both in excess of the 27 lower division (36 total general education units less 9 upper division general education units) general education units required for accreditation by the Accrediting Commission for Community and Junior Colleges⁴¹;

Whereas, The baccalaureate degree lower division general education pattern being proposed⁴² was vetted in its first form, which was consistent with current associate degree requirements in California Code of Regulations, title 5, §55063(c)(d), plus the additional units required for the lower division general education of baccalaureate degrees, by baccalaureate degree programs (BDP), BDP articulation officers, and attendees at the baccalaureate degree breakout session at the 2022 Curriculum Institute, and then adjusted for alignment with the proposed singular lower division general education pathway required by AB 928 (Berman, 2021)⁴³ and proposed associate degree revisions; and

Whereas, Delegates are being asked to support a holistic realignment and revision of the general education required by California Code of Regulations, title 5, §55063 to align it with the proposed California General Education Transfer Curriculum (CalGETC) pattern required by AB 928 (Berman, 2021),⁴⁴ and students would benefit from alignment of all three lower division general education patterns;

Resolved, That the Academic Senate for California Community Colleges work with the California Community Colleges Chancellor's Office to incorporate the proposed lower division general education pattern for California community college baccalaureate degrees⁴⁵ into the Baccalaureate Degree Handbook and, as appropriate, into California Code of Regulations, title 5.

Whereas, The governor of California approved AB 1111 (Berman, 2021)⁴⁶ Common Course Numbering on October 6, 2021, requiring the California Community College system to “adopt a common course numbering system for all general education requirement courses and transfer pathway courses”;

Whereas, The legislature declared in AB 1111 (Berman, 2021)⁴⁷ that “C-ID provides a mechanism to identify comparable courses and is a critical step to developing a student-facing common course numbering system”;

Whereas, The Academic Senate for California Community Colleges (ASCCC) collected feedback from faculty statewide via a survey on the ASCCC website homepage⁴⁸ as requested during the ASCCC 2022 Curriculum Institute ranging from support to concern about the details; and

Whereas, Previous iterations of common course numbering in California have demonstrated that faculty participation and support are integral to the success and implementation of a common course numbering system as demonstrated by the Academic Senate for California Community Colleges' established and functioning C-ID Course Identification Numbering System⁴⁹ that primarily leverages faculty to drive curricular changes;

Resolved, That the Academic Senate for California Community Colleges work with the California Community Colleges Chief Instructional Officers and the California Community Colleges Chancellor's Office to establish a common course numbering system as required by AB 1111 (Berman, 2021)⁵⁰ and to establish processes that are modeled after the established and functioning C-ID Course Identification Numbering System.⁵¹

***07.04 F22 Establishing an Effective and Sustainable Zero Textbook Cost Program**

Whereas, California Education Code §78052⁵² states that community colleges must “[d]evelop degrees with consideration for sustainability after grant funding is exhausted, including how content is updated and presented,” suggesting that the California Community Colleges Chancellor's Office should discourage colleges from employing unsustainable mechanisms to establish degrees such as buying textbooks for students or implementing automatic billing or inclusive access that may cause financial and psychological trauma to students;

Whereas, The Academic Senate for California Community Colleges recognizes that open educational resources (OER) are “the preferred and most sustainable mechanism for eliminating course costs”⁵³ and that it should “work with the California Community Colleges Chancellor's Office, as part of the Zero-Textbook-Cost Degree Program, to establish the funding and process necessary to ensure that Zero Textbook Cost (ZTC) resources will remain current and relevant beyond the 2027-reporting deadline established in California Education Code §78052,”⁵⁴ thereby showing the faculty commitment to ZTC and OER sustainability; and

+07.07 F22 Establish Title 5 Regulations on Counselor to Student Ratios

Whereas, Counseling and instruction are equal partners in the education of community college students, more than at any other level of education⁶⁶;

Whereas, The Academic Senate for California Community Colleges Resolution S03 7.01⁶⁷ adopted a report stating the counselor to student ratio should be determined by using the number of hours counselors are available to serve the broad needs of the general student population and not solely on MIS (management information system) data, which indicates the number of counseling faculty in the California Community Colleges system but does not distinguish between counseling faculty who provide direct counseling to students and those who are reassigned to other activities (see ASCCC paper “Consultation Council Task Force on Counseling”⁶⁸);

Whereas, California Education Code §66406.9 requires that California community colleges “clearly highlight, by means that may include a symbol or logo in a conspicuous place on the online campus course schedule, the courses that exclusively use digital course materials that are free of charge to students”⁷⁴ and California Education Code §78052 defines zero-textbook-cost degrees as “community college associate degrees or career technical education certificates earned entirely by completing courses that eliminate conventional textbook costs by using alternative instructional materials and methodologies”⁷⁵;

***+07.09 F22 Clarify Components of XB12, the Instructional-Material-Cost Section-Level Data Element**

Whereas, The Academic Senate for California Colleges advocated to establish a course section data element that, at a minimum, differentiates between sections requiring the purchase of a textbook or other instructional materials including those requiring purchase of an access code and all instances when a printed resource is required and not provided, those sections that are zero textbook cost (ZTC) due to the use of no-cost open educational resources, those that are ZTC but the resources have a cost that is not passed on to students, those that use no textbook, and those that are low-cost as defined locally (Resolution S21 11.02)⁸¹;

⁸¹ Resolution S21 11.02 Advocate for Development of a ZTC Data Element: <https://asccc.org/resolutions/advocate-development-ztc-data-element>.

Whereas, XB12, Instructional-Material-Cost section level data element, was added to the California Community Colleges Management Information System Data Element Dictionary⁸² for implementation in summer 2022;

Whereas, While the XB12 Instructional-Material-Cost data element, as introduced, is aligned with the intent of Resolution S21 11.02,⁸³ components of it are open to interpretation and important distinctions have not been made, including code A (section has no associated instructional material), which is intended for those sections that have no required instructional materials, code B (section uses only no-cost open educational resources), which inappropriately presumes that the only no-cost resources are open educational resources and that all open educational resources are no cost, and code D (section has low instructional material costs as defined locally) which presumes that there is a common understanding of what it means to establish a low-cost definition locally; and

Whereas, The Academic Senate for California Community Colleges encourages colleges to implement a mechanism for identifying course sections that employ low-cost course materials because efforts to substantially decrease the costs of course materials should be recognized (Resolution F17 13.01⁸⁴) and recognizing the need for an alternative to the legislated zero-cost designation (California Education Code §66406.9⁸⁵), some colleges and districts have implemented a low-cost designation with low-cost being defined as below a locally specified dollar amount;

Resolved, That the Academic Senate for California Community Colleges request that the California Community Colleges Chancellor's Office clarify that XB12 code A is to be used when a course section has no required instructional materials;

Resolved, That the Academic Senate for California Community Colleges work with the California Community Colleges Chancellor's Office to modify the XB12 data element codes to differentiate between those sections that use no-cost open educational resources and those that use other no-cost resources; and

***+07.10 F22 Title 5 Regulations Governing Catalog Rights**

Whereas, California community college district catalog rights are governed by contract law, as stated in Chancellor’s Office Legal Opinion 09-04, which states that “(c)atalog rights are based in contract law and students can enforce the catalog rights only against the original college. . . . [and] colleges are authorized to grant additional rights to students on a permissive basis,”⁸⁶ thus permitting the establishment of district-based catalog rights policies and procedures not subject to any standards established in regulations approved by the California Community Colleges Board of Governors;

Whereas, Catalog rights are intended to protect students from changes in program requirements by affording them to complete such requirements based on any catalog in force while they are in attendance at a college, yet the current lack of statewide regulations governing the existing catalog rights policies and procedures established by California community college districts results in the inconsistent, and potentially inequitable, application of catalog rights for students who attend colleges between districts who are likely not aware that inconsistencies in catalog rights policies and procedures may delay or prevent them from completing their educational goals in a timely manner; and

Whereas, The California State University (CSU) Board of Trustees has long established through California Code of Regulations, title 5, §40401 (which was last amended December 4, 1984) uniform catalog rights requirements for the entire CSU system that are applicable to any “undergraduate student remaining in attendance in regular sessions at any California State University campus, at any California community college, or any combination of California community colleges and campuses of The California State University”⁸⁷;

Resolved, That the Academic Senate for California Community Colleges assert that uniform statewide standards for catalog rights that remove unnecessary barriers to students seeking to complete their educational goals are essential for improving student success and ensuring equitable outcomes for students; and

Resolved, That the Academic Senate for California Community Colleges work with the California Community College Chancellor’s Office and appropriate system partners to research possible alternatives for crafting California Code of Regulations, title 5 that establish minimum requirements for catalog rights for all California community colleges that remove unnecessary and inequitable barriers to completion for all California community college students, and report their findings and recommendations at the Spring 2023 Plenary Session.

***+07.12 F22 Re-evaluating the California Promise Grant Regulations regarding Probation, Dismissal, and Denial**

Whereas, The California community colleges are open-access institutions dedicated to serving all in their communities who desire access to higher education opportunities;

Whereas, The current California Code of Regulations, title 5, §§55031–55034 on probation and dismissal⁹³ require that districts place struggling students on either academic or progress probation, which require the loss of the California Promise Grant (formerly known as the Board of Governors Fee Waiver) after two consecutive primary terms on probation (California Code of Regulations, title 5, §58621⁹⁴), and may require dismissal after three consecutive primary terms on probation; and

Whereas, Unlike the disciplinary actions of suspension and expulsion, which are rooted in reasonable expectations for student conduct, the actions of probation, dismissal, and removal of eligibility for the California Promise Grant (formerly known as the Board of Governors Fee Waiver) are punitive actions not related to violations of student conduct codes that are antithetical to the values and mission of the California Community College system;

Resolved, That the Academic Senate for California Community Colleges support suspending and ultimately repealing the current regulatory requirements established in California Code of Regulations, title 5, §58621⁹⁵ that California Promise Grants (formerly known as the Board of Governors Fee Waiver) be denied to students who are on academic or progress probation for more than two consecutive primary terms; and

13.0 General Concerns

***+13.01 F22 Prioritize Countering the Effects of Learning Disruption with COVID-19 Recovery Block Grant**

Whereas, Multiple reports indicate that, since 2020, the COVID-19 pandemic has caused learning loss and educational disruption that have resulted in alarming declines in K-12 student mathematics and English scores, chronic absenteeism, lack of student engagement, and mental health challenges, negatively affecting student success and exacerbating longstanding equity gaps¹⁰²;

Whereas, The Academic Senate for California Community Colleges has urged all stakeholders to address COVID-19 related learning disruption to provide all students with access to a community college education by offering adequate math and English courses to serve the needs of all students, especially those who have been disproportionately impacted by the pandemic (Resolution F19 20.01 Improve Math and English Outcomes by Expanding Access and Addressing COVID-19 Related Learning Disruption¹⁰³);

Whereas, The 2022–2023 state budget provides \$650 million in one-time funding to establish the California Community College COVID-19 Recovery Block Grant, with the intention that funds are used for activities that directly support community college students and mitigate learning losses related to the impacts of the COVID-19 pandemic (see California Community Colleges Chancellor’s Office, Memo Number: FS22-10 California Community College COVID-19 Recovery Block Grant¹⁰⁴); and

Whereas, Local districts shall engage in collegial consultation with local academic senates on “policies regarding student preparation and success” and “processes for institutional planning and budget development” (California Code of Regulations, title 5, §53200. Definitions¹⁰⁵);

Resolved, That the Academic Senate for California Community Colleges urges local academic senates to engage in collegial consultation with their districts to prioritize countering the effects of learning disruption in the budgeting of their COVID-19 Recovery Block Grant funds.

***+13.02 F22 Updating Codes of Conduct to Support Safe and Welcoming Classrooms and Learning Spaces in a Politically Charged Climate**

Whereas, A safe and welcoming academic environment in the classroom and learning spaces is essential for student engagement, dialogue and success;

Whereas, The politically charged climate in California and across the nation as a whole has encouraged subjective and often aggressive responses, especially to conversations and efforts around anti-racism and equity, including in our classrooms where such responses are more often targeted at women of color, disrupt teaching, and threatening safe classroom environments and learning spaces;

Whereas, Many colleges may currently have procedures in place to address disruptions, such as racelighting¹⁰⁶ and discriminatory behavior, and faculty may not be familiar with those policies, and in some cases those procedures have not been revisited or revised in a way to address issues related to racelighting and discriminatory behavior exacerbated by the current political climate; and

Whereas, College administrators can demonstrate strong support for safe and welcoming classrooms as well as for faculty's efforts to engage in difficult conversations around advancing anti-racism and mitigating discrimination by ensuring that a well-developed and well-publicized policy addressing disruptions in classroom and learning spaces is in place;

Resolved, That the Academic Senate for California Community Colleges urge local academic senates to work with their college administrators and student governments to revisit, and, if necessary, revise/update their code of conduct policies to protect all constituents against racelighting and discriminatory behavior as well as revise/update procedures dealing with disruptions in the classroom and other learning spaces and develop a plan to ensure that faculty are aware of them; and

Resolved, That the Academic Senate for California Community Colleges develop resources beginning in spring of 2023 such as a toolkit, position paper, or *Rostrum* articles in order to support the efforts of local academic senates to maintain safe, welcoming classroom environments and learning spaces to promote up-to-date and well-publicized codes of conduct and procedures for discriminatory disruptions and racelighting.

Whereas, The Academic Senate for California Community Colleges, the Academic Senate of the California State University, and the Academic Senate of the University of California are vetting the proposed CalGETC among faculty within each system during fall 2022 to gather intersegmental support for and to inform the final determination of the “singular lower division general education pathway” required of the Intersegmental Committee of Academic Senates; and

Whereas, The Academic Senate for California Community Colleges (ASCCC) collected feedback May through September of 2022 on the proposed California General Education Transfer Curriculum (CalGETC) via a survey that was disseminated broadly through the ASCCC listservs and posted on the ASCCC website home page;

Whereas, The Student Transfer Achievement Reform Act of 2021, AB 928 (Berman, 2022)¹¹¹ requires that “a singular lower division general education pathway,” be established to be used by California community college students intending to transfer to either the California State University or the University of California, which replaces the current California State University General Education Breadth (CSU GE-B) and Intersegmental General Education Transfer Curriculum (IGETC) general education patterns effective the 2025—2026 academic year, and proposed to be known as the California General Education Transfer Curriculum (CalGETC);

Whereas, The California State University and University of California systems are responsible for establishing policies and regulations for admitting students transferring from the California community colleges;

Resolved, That the Academic Senate for California Community Colleges work with its Academic Senate of the California State University and Academic Senate of the University of California partners to ensure that students enrolled at California community colleges prior to the implementation of the singular lower division general education pathway, proposed to be known as the California General Education Transfer Curriculum (CalGETC),¹¹² are provided flexibility of options for meeting lower division general education requirements for transfer so that no otherwise qualified community college transfer student is denied admission to the California State University or the University of California.

¹²⁴ California Community Colleges Chancellor’s Office Memorandum (November 13, 2020). ESS 20-300-009. Equitable Placement (AB 705) Validation of Practices Data Reporting located at

Whereas, AB 1705 (Irwin, 2022)¹²⁵ may result in additional California Community Colleges Chancellor’s Office guidance on “limit[ing] the use of multiple measures and the enrollment into noncredit coursework by colleges in the placement and enrollment of students . . . [and] establish[ing] those placement regulations to achieve the placement goal . . . and prohibit[ing] a community college district or community college from recommending or requiring students to enroll in pretransfer level English or mathematics coursework, except under specified circumstances”¹²⁶;

Whereas, Disruptions to learning during the pandemic have resulted in significant declines in California K-12 student performance in English and mathematics in 2021, where “about half of all California students tested did not meet state standards in English language arts and about two-thirds did not meet standards in math. The scores of Black, Latino and economically disadvantaged students were significantly lower, with more than 60% not meeting English standards and about 80% not meeting math standards” and “about 40% of 11th graders” in California not meeting grade standards in English¹²⁷; and

Whereas, California community college faculty would benefit from sharing of ideas and strategies on how to ensure that all students, especially from communities identified as experiencing equity success gaps, succeed in not only passing transfer level English and mathematics after direct placement into those courses, but also would ensure successful attainment of student educational goals;

Resolved, That the Academic Senate for California Community Colleges urge local academic senates to identify one or more teaching and/or counseling faculty members supporting students in placement into mathematics and English courses to act as Equitable Placement and Student Success Liaison(s); and

Resolved, That the Academic Senate for California Community Colleges support communication with the California Community Colleges Chancellor’s Office and the California Community Colleges Curriculum Committee for input by the Equitable Placement and Student Success Liaisons on academic and professional matters focused on equitable placement practices and student support strategies per California Code of Regulations, title 5, §53200.¹²⁸

***17.02 F22 Textbook Automatic Billing Concerns**

Whereas, Automatic billing or inclusive access strategies have been introduced by publishers and bookstore vendors as a mechanism to grant students access to course resources by billing them for those resources at the time of registration and requiring that a student opt out of the program for all courses if the student determines the program is not beneficial;

Whereas, Inclusive access strategies may be cost-effective in educational settings where students are primarily full-time and efforts to contain textbook costs have been without impact, but such an approach to establishing a zero textbook cost pathway would be inherently unsustainable and inconsistent with the California Education Code §78052¹²⁹ funding the Zero-Textbook-Cost Degree Grant Program;

Whereas, When the implementation of inclusive access requires students to pay a per unit fee for their resources, these costs may exceed the actual costs of the required resources, misleading students to believe they are saving money or putting the burden on the students to opt out if the arrangement is not financially beneficial; and

Whereas, Inclusive access has come under scrutiny for the challenges it creates for students, such as opt out mechanisms that are unclear or have unrealistic deadlines, implementations where access is temporary, and affordability for some students, as well as approaches that limit faculty academic freedom to choose the best resources for their students;

Resolved, That the Academic Senate for California Community Colleges oppose the use of inclusive access strategies and other approaches that maintain reliance upon commercial publishers, as such mechanisms are not consistent with the intent and requirements of the Zero-Textbook-Cost Degree Grant Program of California Education Code §78052¹³⁰; and

Resolved, That the Academic Senate for California Community Colleges urge local academic senates to critically evaluate proposals to employ inclusive access as a means to decrease student costs, with an emphasis on ensuring that savings are being realized and that options for opting out are clear and explicit.

***+17.03 F22 Using Zero Textbook Cost Funds to Support an Open Educational Resource/Zero Textbook Costs Faculty Coordinator**

Whereas, The Academic Senate for California Community Colleges has urged local academic senates to identify an open educational resources (OER) liaison (Resolution F18 17.02)¹³¹ and subsequently encouraged local colleges to identify and support a faculty OER coordinator because various opportunities for obtaining funding for local OER efforts require that a coordinator be identified to oversee the work and significant increases in OER usage are reported when a local advocate has dedicated time to support OER adoption (Resolution S19 13.02)¹³²;

Whereas, The Academic Senate for California Community Colleges Open Educational Resources Initiative (OERI) has established and supported a statewide network of OER Liaisons who facilitate OER-related communication between the colleges and the Academic Senate for California Community Colleges but who may not be locally supported to serve as OER coordinators who would engage in activities above and beyond those of OER Liaisons;

Whereas, Resolution S16 09.09¹³³ asserted the primacy of faculty in curricular decisions regarding degree and program developments, including zero textbook cost (ZTC) degrees and emphasized the need to ensure that the primacy of faculty is retained by including the local academic senate's approval of the development of such degrees, and Phase 1 of the ZTC Program is composed of grants in the amount of \$20,000 awarded to the 115 accredited degree-granting California community colleges to plan the development and implementation of a ZTC degree or certificate program, an endeavor that requires faculty leadership and the support of administration and staff; and

Whereas, The Academic Senate for California Community Colleges (ASCCC) recognizes open educational resources (OER) as the preferred and most sustainable mechanism for eliminating course costs (Resolution F21 03.05),¹³⁴ positioning the ASCCC OER Initiative and local OER Liaisons to advocate for OER to be the focus when implementing the Zero Textbook Cost Program;

Resolved, That the Academic Senate for California Community Colleges encourage local academic senates to consult with their Open Educational Resources Liaisons when developing their Zero Textbook Cost Program plans;

Resolved, That the Academic Senate for California Community Colleges urge local academic senates to work with their administrations and other appropriate college constituencies to establish a faculty coordinator position that plays a leadership role with respect to the local implementation of the Zero Textbook Cost Program and may serve as the college's Open Education Resources Liaison; and

Resolved, That the Academic Senate for California Community Colleges encourage local academic senates to work with their administrative colleagues to use a portion of the Zero Textbook Cost Program funds to support a faculty coordinator who leads the college's open educational resources and Zero Textbook Cost Program efforts.
